The application has been amended as follows:

Claim 20 reads:

"A medical instrument for use in surgical procedures made from an a silver alloy comprising from 0.9% to 3.75% by weight of germanium; from 5 % to 15% by weight relative to the germanium of at least one of a non-hydrogenic and shallow hydrogenic acceptor dopant; up to 1% by weight of a compound selected from the group consisting of copper and silicon, and as a remainder up to 100% by total weight constituted by silver, and wherein the instrument is coated partially or completely with one or more of a material selected from the group consisting of biocompatible, insulating, semi-insulating compounds and ceramic materials."

The following is an examiner's statement of reasons for allowance:

Claims 20-25, 30 and 33-49 are pending. Independent claims 20 and 30 include language toward a silver germanium alloy. The prior art does not disclose or suggest the combination of constituents now claimed. Further, the Applicant has filed

declarations 1-3-07 toward unexpected and superior results during use of the claimed silver germanium alloy in a medical setting thereby decreasing the likelihood of obviousness in light of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
